OUR SERVICES

LOG IN

Register for the program in only 4 months you will have the chance to become part of a community. Learn new skills and find a job, being able to better integrate. Learn, integrate, create.

WHAT SERVICE OFFERS

Integration

Thanks to the practice in Refresh Point and in Refresh Units, you will be able to deal with locals and experience working in teams, becoming the creator of new community.

Acquisition of new skills

Hydroponics and healthy cooking lessons are organized and provided by experts in partnership with the Istanbul Metropolitan Municipality.

PROBLEM

Refugees are the one of the biggest problem. There are 70.8 million displaced people around the world. They are facing health, education and safety problems.

Traditional agriculture is not environmentally friendly. It's one of the field that today creates most pollution worldwide.

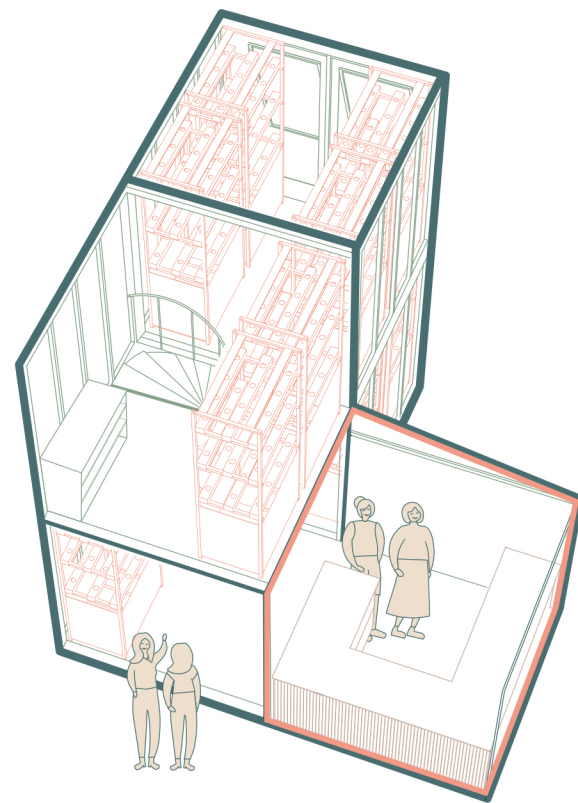

SOLUTION

The product service system offers to the women refugees an hydroponic theoretical and practical training, healthy food cooking lessons and a refresh network that allows to find a job in the hydroponics greenhouses, or in the sustainable cafes and restoarants.

BENEFITS

The service...

- . Gives the opportunity to women refugees to **feel part of a community**
- . Brings together refugees and locals as a **touch point**
- . Offers **0 km production** inside the city
- . Offers **fresh vegetable** and serves healthy street food
- . Allows to **be part of a sustainable agriculture/ food community**

- . 2 women work in the Refresh units, exercising the hydroponic system
- . 2 women work in the cafe
